Upgrade

Welcome to SUSE Studio!

Configure your appliance using the tabs above.

When you're finally done making everything the way you want, [visit the Build tab](#) to generate your appliance.

But first, give your appliance a name! It will be used in the boot screen, and in several other places.

Appliance name:

GNU Health 2.4.1 / KDE 4 / 32bit

Overlay files

Files added here will be copied into the appliance after packages are installed. Adding files is optional.

- **Single files** will be copied to the specified directory.
- **Archives** (.tar, .tar.gz, .tar.bz2, .tgz, or .zip) will be extracted into the directory specified. Permissions and hierarchy will be preserved. Using archives is a great way to add many files at one time.

Name	Directory	Extract	Size	Owner/Group	Permissions
gnuhealth24.sql.bz2	/home/gnuhealth/	<input checked="" type="checkbox"/>	1.6 MB	gnuhealth / users	rw-rw-rw-
gnuhealth_mar23.tar.bz2	/	<input checked="" type="checkbox"/>	28.4 MB	postgres / users	rw-r--r--
libreoffice.tar.bz2	/home/gnuhealth/	<input checked="" type="checkbox"/>	200.1 KB	gnuhealth / users	rw-r--r--
Tryton.tar.gz	/home/gnuhealth/	<input checked="" type="checkbox"/>	1.2 KB	gnuhealth / users	rw-r--r--
boot.local	/etc/init.d/		419 Bytes	root / root	rxwxr-xr-x
dolphinrc	/etc/skel/kde4/share/config/		821 Bytes	gnuhealth / users	rw-----
GNUHealth.desktop	/home/gnuhealth/Desktop/		1.1 KB	gnuhealth / users	rxwxr-xr-x
kickoffrc	/etc/skel/kde4/share/config/		418 Bytes	gnuhealth / users	rw-----
plymouthd.conf	/etc/plymouth/		103 Bytes	root / root	rw-r--r--
SuSEfirewall2	/etc/sysconfig/		34 KB	root / root	rw-r--r--
SUSEgreeter	/usr/bin/		30.1 KB	root / root	rxwxr-xr-x
trytond.conf	/etc/		2.1 KB	root / users	rw-r--r--

GNU Health 2.4.1 / KDE 4 / 32bit

Published by [Axel Braun](#) Based on [openSUSE 13.1](#) 32-bit x86 Homepage at <http://health.gnu.org/>

GNU Health is a free Health and Hospital Information System with the following functionality:

- Electronic Medical Record (EMR)
- Hospital Information System (HIS)
- Health Information System

This installable live-CD offers a ready-to-run version of GNU Health.

Passwords: User gnuhealth: gnuhealth ; Demo-database: admin:gnusolidario

Note: First boot from USB-Stick is slow, as some setup on the stick is made. Second boot and working is much faster, and WLAN works then as well!

For installation instructions, see https://en.wikibooks.org/wiki/GNU_Health/The_Live-CD
